2016 Suzuki GSX-R600

The Suzuki GSX-R600 is a class-leading sport bike worthy of its race-winning GSX-R heritage. Whether you're carving through your favorite canyon or dominating the racetrack, it offers unparalleled performance. A compact, powerful 4-cylinder engine demonstrates the advanced race-proven technology of the GSX-R line when you hit the throttle and push it to redline, while supremely refined suspension systems front and rear help provide precise, responsive handling.

Features may include:

- Compact 599cc 4-cylinder engine with a race-proven over-square bore/stroke ratio that produces remarkably strong high RPM power delivery.
- Camshafts with aggressive valve-lift profiles were developed using proven MotoGP racing engine technology the first time this method has been applied to a production Suzuki.
- Lightweight and durable forged pistons were designed using the same Finite Element Method (FEM) and fatigue analysis technology used for MotoGP racing engines.
- 4-into-1 stainless-steel exhaust system with a titanium muffler is fitted with a Suzuki Exhaust Tuning (SET) valve that maximizes torque and improves throttle response, especially in the low-to-mid RPM range.
- The frame is mated with a cast aluminum swingarm and multi-piece rear sub-frame that's ready for race-track adaptation.
- Front brakes with fully floating 310mm discs are grasped by radial-mount, four-piston BREMBO monobloc calipers.
- Attention to rider comfort and confidence includes a carefully shaped seat with a high-grip cover.
- Stylized Suzuki S 3-D emblems on the fuel tank and the fork upper bracket denotes the quality, sophistication and performance legacy of the brand.
